^{NSP} No Skidding® **CONCRETE ANTI-SLIP** **FLOOR TREATMENT** *For Concrete Floors #50378*

The Long-Lasting Answer To The Problem of Dangerous, Slippery When Wet Unpainted Concrete Floors And Terrazzo

- A clear, chemical treatment that increases the co-efficient of friction and the safety of the surface when wet.
- Indoor and Outdoor use.
- Easy application and low odor.
- Does not noticeably alter the appearance of the surface.
- One application lasts for up to five years.
- The only treatment system in the world available in custom formulations for:
 - Heavy duty concrete floors & similar #50378.
 - Regular, most natural stones #90378.
 - Porcelain Tile #80378.

Concrete Anti-Slip Floor Treatment

Over 27,000 slip and fall injuries occur daily across North America. Two thirds of lost employee work days are due to slips and falls. Half of all injuries in hotels and restaurants occur due to slip and falls. Slippery floors in the workplace expose you to worker's compensation claims and lost productivity. They are also the major cause of injuries in the workplace and the home. Slippery floors in buildings frequented by the public expose you to potential litigation for injuries and damages. Slip/Fall injuries are the leading cause of insurance liability payments after auto collisions. Hard floors are made to be durable not slip resistant and rapidly lose traction when wet. No Skidding® Treatment works by creating an "Invisible Tread" on floors, which increases the co-efficient of friction and reduces the problem of dangerous when wet surfaces. The Treatment works on unsealed concrete and terrazzo. It may be used indoors and outdoors. The wetter the floor the more effective the slip-resistance.

World-Wide Usage

No Skidding® Anti-Slip Treatment is in use in over 40 countries including mass transit, airports and by most North American hotel chains.

Extremely Durable

Just one application will last for years under high traffic situations.

No Complicated Mixing

Supplied ready to use! Simply pour into a plastic pail and mop onto floor. One gallon will treat over 400 sq. ft.

An Effective System For Commercial Kitchens & Greasy Areas

Anti-Slip Treatment and On Guard degreaser can help you to improve safety on greasy, dangerous floors in supermarkets, fast food and food processing.

Industrial Warehouse

Leading Technology Cleaners

For on-going maintenance, we recommend No Skidding® On Guard, a highly concentrated cleaner & degreaser that removes dirt rapidly by breaking the electrostatic bond between the soil and the hard surface. Self-neutralizing. Helps prevent emulsification of grease into a slippery residue on the floor. Removes hard caked on grease.

Easy Application

Ready to use. Quick and easy to apply. Simply clean floor, pour Treatment into a pail and spread with a mop. Keep damp for the recommended time. There is no curing period; the area may be used immediately after application. One gallon will treat over 400 sq. ft. The treatment is not affected by chlorine, acids, or alkalis. Exceeds co-efficient of friction requirements for ASTM, OSHA, ADA, Canadian and U.S. Government industrial safety standards. Approved by Agri-Foods Canada for use in the food industry. Full directions for use on label.

About No Skidding® Anti Slip Treatment On Concrete And Terrazzo Floors

A clear chemical treatment that increases the coefficient of friction on concrete surfaces, thereby increasing the safety of the surface when wet. No Skidding® Anti Slip Treatment helps reduce slip and fall injury. The product has easy application features and low odor. It does not noticeably alter the appearance of the surface. Does not adversely affect the maintenance of the surface.

Approved by Agri-Foods Canada for use in food processing facilities.

Typical Applications:

Restaurants, hotels, motels, supermarkets, hospitals, nursing homes, factories, food processing plants, health clubs, shopping malls, office buildings, swimming pool decks, showers and staircases. No Skidding® Anti Slip Treatment can be used indoors and outdoors.

What is No Skidding® Treatment?

No Skidding® Treatment is a water based, low odor, colorless liquid. It is not a coating that can wear and that requires repeated re-application.

No Skidding® Treatment was formulated to be a quick, easy application on uncoated concrete floors. It is simply mopped onto the clean floor. The floor is kept wet with the Treatment, usually for 15 to 20 minutes, and then rinsed away with clean, cold water. This simple process will increase the coefficient of friction and will typically be effective for up to 5 years with proper maintenance. The floor can be put back into use immediately. There is no cure time as with coatings.

How does No Skidding® Treatment work?

All natural stone including concrete contains small amounts of silica. No Skidding® Anti Slip Treatment is carefully formulated to dissolve a controlled amount of the silica so as to create thousands of minute, shallow indentations in the surface.

Because the profile sits BELOW the level of the surface, it does not affect the cleaning process as with a profile that stands ABOVE the surface such as an anti slip paint coating.

When the surface is wet with water, these shallow indentations fill. When a pedestrian walks across the wet surface and their shoe starts to slide, the water is squeezed out of the indentations turning them into thousands of suction cups that stop the shoe from slipping.

All that is required of the property owner is good housekeeping to keep the floor free of soil accumulation and grease.

No Skidding® Treatment is a simple, very low cost and low maintenance method of boosting floor safety, yet maintaining good gloss levels. See "testimonials" in our website www.noskidding.com. This product cannot eliminate the possibility of slipping.

PLEASE READ AND FULLY UNDERSTAND LABEL AND MSDS BEFORE USING.

Important: Seller's and manufacturers only obligation shall be to replace such quantity of the product proved to be defective. Neither seller nor manufacturer shall be liable for any injury, loss or damage, direct or consequential, arising out of the use of or the inability to use the product. Before using, user shall determine the suitability of the product for the intended use, and the user assumes all risk and liability whatsoever in connection therewith. No statement of recommendation not contained herein shall have any force or effect unless in an agreement signed by officers of the seller and manufacturer. Buyer assumes all risk and liability associated with disposal.

No Skidding® products are in use around the world in hotels, warehouses, factories, shopping malls, public transit systems, airports, hospitals and senior care, office complexes, restaurants, day care, schools, fitness clubs, government and military facilities.

The most complete range of slip injury prevention products in the World.
